

Chapter 6 Assessment Reflections

Name _____

Period _____

Target 1: Determine if an ordered pair is a solution.					Target 2: Solve a system of linear equations by graphing.					Target 3: Solve a system of linear equations by substitution.				
A1	A2	A3	A4	Test	A1	A2	A3	A4	Test	A1	A2	A3	A4	Test

A1: (name) Homework 1					Date:					Fill in names/dates For all assessments In lines below graphs				
A2: quiz A														
A3: Homework 2														
A4: essay														
A5: items 1 -6 on ch. test														

Target 4: Solve a system of linear equations by elimination.					Target 5: Solve real-world problems using a system of linear equations.					Target 6: Graph a linear inequality.				
A1	A2	A3	A4	Test	A1	A2	A3	A4	Test	A1	A2	A3	A4	Test

Types of errors:

Problem	Can't graph a line	Comp. error	Concept	Incorrect shading	Couldn't set up equations	Basic Algebra mistake
Fix:						

Note: helpful if you put everything on a similar scale (like a 4 point rubric) so that everything is equal in weight and students can monitor growth more accurately. Also helpful if you leave space for noting errors and identifying strategies to fix those errors.
